- Accounts
- Account Types
- Organizations

“We have been very impressed! If you know Excel, it's easy to use. This is going to save us a lot of time each month not having to manipulate data from our accounting system into Excel. It's hard for me to believe that I can open up our cash flow statement in Excel and it has all the current data in there and I don't have to do anything except click a button.”

--Kristin O., Helix Environmental Planning
